Videotraining sofort als Stream oder Download verfügbar.

Herzlich Willkommen beim online Video-Training von Screenfrog. Alle bei Screenfrog erschienenen Videos sind nun auch direkt online für Sie abrufbar. Natürlich finden Sie in unserem Online-Shop auch alle bekannten DVDs. Wir wünschen viel Erfolg beim Lernen.

- Ihr **screenfrog** Team

What exactly is Screenfrog?

Screenfrog is a Web-Portal Portal for Training Videos, over which Training Material for Software Application is offered as Direct-Download or Streaming Videos.

How can I watch the Training videos?

There are two types of materials: free and fee required. In order to see the video content of Screenfrog there is a free of charge registration required. Subsequent to the purchase of credits the fee-required content will be also available and therefore one cannot access any fee-required content by mistake.

Screenfrog-System was developed using PHP, MySQL and Joomla CMS making available several modules, such as:

- Registration (customized registration form designed to acquire certain information);
- Credits (administer, buy, see, spend, etc.);
- Account (Account Management of each user, out payments, etc.);
- Evaluation System, (Evaluation and Comments, Top 5 Integration);
- Payment System (for Payments using PayPal, credits are automatically transferred into user accounts; IPN – Instant Payment Notification, etc.);
- Messaging System (offering users the possibility to send messages to the tutorial authors. Messages can be paid for using previously purchased credits)

The System supports not only video file types but also usual formats as: **.pdf**, **.doc**, **.xls**, **.ppt**, **.zip**, etc.

A previously programmed menu module is presented to the users. By using this module, the system administrator is the only one that has the possibility to change the structure of the menu.

Log On.

The System offers users the facility to log on, administer their accounts, passwords, etc.

The Log-On Module is designed in order to provide the system administrator with all the required information

Full access to all user areas is possible only for registered and logged on users.

The logged in user has similar access facilities for the right hand side menu.

My Media Files. All files listed in here were viewed or downloaded by the user in the past. Online Videos can be viewed up to three times before further credits are required. If there are no more available „views“ for a file, it will be automatically erased from the list.

Each user can enter and save their own profile under **User Details**.

CREDITS KAUFEN

Leider ist Ihr Credit Guthaben aufgebraucht oder Sie möchten zusätzlich weitere Credits kaufen. Mit Paypal bezahlte Credits werden sofort Ihrem Benutzerkonto gutgeschrieben.

Anzahl der Credits

Preis insgesamt 120,00€

Zahlungsmethode

Credits can be bought by **PayPal-Payments** or by **Bank Transfer**.

IPN. The module was adjusted to automatically transfer credits when a PayPal-Payment is carried out.

Under **Payment History** the user finds all his payments to Screenfrog since registration.

Upload Media. The users belonging to the Author Group have the possibility to upload files in order to publish them. Intellectual property issues are settled through an agreement with the administrator offering authors the option to win a percentage of the incomings and cash them.

Author Statistics. Here are presented stats regarding the playback and income of each product.

Under **Bills** you can perform queries of the database which will automatically display the results. These results can also be saved as a PDF-file.

01 Einleitung (2min 30sec) PLAY 1 Credit(s)	Autor: asdf ★★★★★ 1 Bewertungen
02 Shortcuts (1min 56sec) PLAY 8 Credit(s)	Autor: Bollo ★★★★★ 1 Bewertungen
03 Idee skizzieren () PLAY 1 Credit(s)	Autor: Bollo ★★★★★ 1 Bewertungen
04 Hauptelemente (2h 3min) PLAY 1 Credit(s)	Autor: Bollo ★★★★★ 1 Bewertungen

The shopping chart.

Here, each product can be **evaluated** and **commented** on.

Moreover, the Evaluation System includes a **Top 5 Ranking System**.

There are multiple **Management Modules** for the System Administrator in order to gather and list various statistics and information.

All **System Variables** are adjustable in this pane (for example: Charge per Credit, available views per buy, records, etc.).

By changing the **Language File** the Administrator can set up the display language of the entire system.
